04/2024

OSHA 10-Hour Construction

OSHA Training Institute • 06/2022

SUMMARY

Window installer with 4 years of replacement and new-construction window installation in Pittsburgh-area homes, with about 1,800 units set. Handles full-frame tear-outs, flashing and waterproofing, door installation and trim carpentry with hand and power tools. Treats customer service as part of the job, leaving every house clean and every homeowner briefed.

EXPERIENCE

Window Installer

Three Rivers Window & Door • Pittsburgh, PA

03/2024 - Present

Installer for a replacement window and door company running 5 install crews.

- Install **10** to 14 replacement windows a day, including full-frame tear-outs in older brick and frame homes.
- Apply flashing tape, foam and caulk at each opening, with zero water-intrusion warranty claims in 2 years.
- Fabricate aluminum exterior trim wraps on a brake and finish interior casing with a miter saw.
- Review the order with homeowners before and after the install, earning 60 five-star reviews that name the crew.

Carpenter's Helper

Allegheny Home Builders • Cranberry Township, PA

04/2022 - 02/2024

Helper on a new-construction framing and finish carpentry crew.

- Framed walls and window rough openings to plan dimensions on 30 single-family homes.
- Set new-construction windows and exterior doors with the lead carpenter, about 25 units per house.
- Hung interior doors and ran baseboard and casing using hand and power tools.
- Measured openings for square and level, catching 15 framing errors before windows shipped.

EDUCATION
